BURNER TUNING REPORTING FORM FOR:
ASPHALTIC CONCRETE PLANTS **AQGP-T07**

1. Source Number: _____ 2. Reporting period: (calendar year): _____
3. Company information:

Legal Name:	Other company name (if different than legal name):
Mailing Address:	Site Address (if different than mailing address):
City, State, Zip Code:	City, County, Zip Code:

4. Site Contact Person:

Name:	Telephone number:
Title:	Fax Number:

5. Type of plant (ie: batch, drum mix, etc.) _____

6. Company performing tuning: _____

7. Company performing emission monitoring: _____

8. Calibration date for CO and O_2 analyzers used to perform emission monitoring: _____

9. Date Tuning Completed: _____

10. Tuning Results[1] :

Parameter	Results	
	Pre Tuning	Post Tuning[4]
Exhaust gas flow rate (dscfm)		
Carbon Monoxide (CO) concentrations (ppm)[2, 3]		
Oxygen concentration (%)[2]		
Stack Gas Temperature		
Asphalt Production (tons/hr)		
Asphalt Mix Temperature		
% Asphalt oil in mix		
RAP content (as % of mix production)		
Fuel usage (gal/ton, therms/ton, or cf/ton)		

[1] During any year in which burner tuning is required by Condition 3.4 of your General Permit, the tuning must be completed and a report submitted to LRAPA by July 15th.
[2] Specify whether on a dry or wet basis.
[3] For Drum mix plants the recommended maximum target concentration for CO is less than or equal to 180 ppm (dry). For Batch plants the recommended maximum target concentration for CO is less than or equal to 155 ppm (dry)
[4] If the plant was did not require adjusting, please record N/A in the post tuning column.

11. Certifying Signature

Name of official (Printed or Typed):	Title of official and phone number:
Signature of official:	Date:

PLEASE SUBMIT THIS REPORTING FORM TO:

Please submit one electronic copy of this form to the Permit Coordinator at:
